

Report on pollution in casa

Ibn Mandour high school was the destination of some people last 3 rd January.

The occasion was a seminar organised by teachers, students , NGA. The seminar revolved around an urgent topic

Pollution in casa participants, including teachers and students attended the meeting. The audience reached the estimated figure of numbers 200 people

The activities included lectures, film projection and works shops. The participants agreed that there were three main causes of pollution in casa.

The first one is a lot of cars the second one is factories such as industrial wastes, Chemical smoke and the third one is domestique garbage.

The participants included the seminar with urgent recommendation. They suggested that the ministry should Improve public transport , delicate factories and recycle garbage.

All those who attended the seminar. Agreed that it was fruitful and successful, most of them were.

Satisfied with results and many others call for further actions.
